SUMMARY

Java backend engineer and solution architect with 5+ years of experience delivering scalable services on Java 8+, Spring Boot, and MySQL. Currently serving as Lead Solution Engineer at Naviq (IBS Group), an AI-centric service company. Builds event-driven systems with Apache Kafka and RabbitMQ; leads engineering initiatives spanning AI-driven product development, enterprise SaaS rollouts, high-volume data migrations, and disciplined database change management.

SKILLS

Core Competencies	Java, Spring Boot, MySQL, Kafka, RabbitMQ, Liquibase, Flyway, Maven, REST, n8n
Basic Knowledge	JavaScript, Angular, Docker, Kubernetes, Python, AWS EC2 & ECS, PostgreSQL, RPC, Clickhouse DB, Spring AOP
Tools & IDEs	IntelliJ, Eclipse, Cursor, Claude, Antigravity, MySQL Workbench, DBeaver, VS Code, Lens, Postman, PuTTY
Version Control	Git, SVN, GitLab, GitHub, Bitbucket
Project Management	Jira, Confluence
Soft Skills	Problem Solving, Leadership, Public Speaking, Volunteering, Technical Aptitude

EXPERIENCE

Naviq (IBS Group) Oct 2026 – Present
Lead Solution Engineer

- Part of the founding team at Naviq, an AI-centric service company spun out of IBS Group, officially launched October 2026.
- Lead solution engineering for AI-driven product offerings, architecting intelligent backend systems and defining technical strategy.
- Shape the next-generation service portfolio leveraging Java, Spring Boot, and AI/ML capabilities.

IBS Software Jun 2026 – Oct 2026
Lead Solution Engineer

- Joined IBS Software as Lead Solution Engineer, driving solution design and engineering for enterprise-grade software products.
- Transitioned to Naviq upon its official launch as IBS Group's AI-centric service subsidiary.

Daiviksoft Technologies Oct 2024 – May 2026
Java Developer *Remote*

- Led a team of four to build scalable backend services and automated workflows using Java and Spring Boot.
- Engineered an on-demand synchronization architecture for CDISC libraries, empowering users to clone, customize, and save tailored libraries natively.
- Designed a centralized, asynchronous audit logging framework powered by Spring AOP and Apache Kafka.
- Architected event-driven microservices to maximize performance, integrating Spring AI for intelligent automation.

Hyreo Technology Solutions Aug 2022 – Oct 2024
Senior Software Engineer & Team Lead *Trivandrum, India*

- Led cross-stack teams in deploying SaaS solutions for clients like Daimler Truck and Creative Synergies Group.
- Migrated 20GB+ production data and redesigned over 10 hierarchical data fields in MySQL within one month.
- Integrated Apache Superset dashboards with Jinja templating and developed KPI/risk identification frameworks.
- Streamlined database change management by introducing Liquibase and optimized microservices with RabbitMQ.
- Promoted to Team Lead within a short tenure for demonstrated technical expertise and leadership.

Flytxt Mobile Solutions Jan 2021 – Jul 2022
Software Engineer *Trivandrum, India*

· Contributed to a cloud-based SaaS product on AWS Elastic Cloud utilizing a microservice architecture.
· Built PolymerJS UI components and integrated the Razorpay gateway into Angular systems.
· Enhanced internal product monitoring tools and health endpoints for improved system observability.

PROJECTS

Spring AOP Audit Logging Framework
Daiviksoft Technologies
· Designed a centralized, asynchronous audit logging framework built on Spring AOP and Apache Kafka.
· Engineered the mechanism as a plug-and-play library for seamless integration with any Spring Boot application.

Data Architecture & Advanced Reporting
Hyreo Technology Solutions
· Designed a new data storage architecture using MySQL and Spring Boot for complex hierarchical data mappings.
· Led the integration of Apache Superset dashboards using Jinja and SQL for advanced real-time reporting.

CERTIFICATIONS

- Java Foundations — JetBrains
- Git Essential Training — LinkedIn
- Generative AI Essentials — Microsoft
- Spring Boot 3 Essential Training — LinkedIn
- SQL (Advanced) — HackerRank
- AWS Route53: Routing Policies — Coursera
- Java Object-Oriented Programming — LinkedIn
- MySQL Explorer Badge — Oracle

EDUCATION

Bachelor of Technology in Information Technology, Government Engineering College, Trivandrum 2020
Grade: CGPA: 7.08

ACHIEVEMENTS

- Awarded Best Employee of the Month within the first quarter of joining Hyreo.
- Successfully led 2+ customer rollouts and assisted 5+ others within one year globally.
- Streamlined database migrations using Liquibase, enhancing deployment reliability and efficiency.
- Elected as Secretary of the College-Level Student Organization (2019-2020).

LANGUAGES

- English — Full professional proficiency
- Malayalam — Native or bilingual proficiency
- Hindi — Elementary proficiency
